Use loom weaving techniques with leather to make a trendy bracelet Lisa Yang Bead and leather wrap bracelets are incredibly versatile and popular to make. It's easy to see why. The design is simple but has endless combinations. Make it your own by changing the color of the leather cord, varying the length of the bracelet (and therefore the number of times the bracelet wraps around the wrist), and the types, colors, and sizes of beads. This bracelet uses a technique similar to loom bead weaving, but you don't need a loom to get started making these bracelets.
